

Reducing Waste in the RDBN

The best option is to reduce!
Before you buy....

1. Can it be recycled?
2. Can it be reused?
3. Can it be composted?

Extended Producer Responsibility

Extended Producer Responsibility (EPR) is a policy approach whereby responsibility for a product's end-of-life management is shifted from local government and taxpayers to the producers of that product. BC has a growing list of EPR programs for products including:

- Smoke alarms and carbon monoxide detectors
- Used oil, filters, containers and used antifreeze.
- Household batteries
- Automotive batteries
- Cell phones and cell phone accessories
- Residential lighting including bulbs and fixtures.
- A wide range of electronic devices
- Small appliances (e.g., toaster, vacuum cleaner)
- Outdoor power equipment (e.g., lawn mower)
- Leftover medicines
- Paints, flammable liquids, and pesticides
- Tires
- Beverage containers
- Residential containers, packaging, cardboard, and mixed paper

For more information on EPR in BC, including drop-off locations, visit www.BCrecycles.ca
