

Farm Emergency Plan

Your plan should include:

Farm Site Map

Include locations of livestock, egress routes, hazardous substances, waste storage, water supply, electrical panels, gas valves, etc.

Emergency Contacts

Family, friends, neighbours, RDBN, veterinarians, important suppliers, and businesses that provide services to your farm. You should also include a list of people, liners, and haulers that can help you transport your livestock/poultry.

Important Documents

Copies of your Farm Business Insurance and other important farm documents.

Put it on a USB to save space!

BC Premesis ID

Make sure your ID is up to date.

Educate

Educate your staff and family members about your emergency plan, emergency contacts, and where to find the information.
