

FireSmart Property Guide

You can reduce the risk of wildfire on your property by following these steps:

Download the FireSmart Begins at Home app and perform a self-assessment.

Contact the FireSmart Educator at the Regional District of Bulkley-Nechako to learn about insurance rebates and the reimbursement program.

Avoid planting highly flammable trees within 10 metres of your home

Such as: Spruce, Fir, Pine, Cedar, or Juniper

Have a wildfire evacuation plan for your household and perform annual drills.

Check out the FireSmart BC Landscaping Guide on the Regional District of Bulkley-Nechako's website.

Plant wildfire resistant trees

Such as: Poplar, Birch, Aspen, Cottonwood, Maple, Alder, Ash, or Cherry.
